text suggests that improving communication with clients can increase customer satisfaction. They ose providing regular updates and involving clients more in decision-making to make them feel valued involved. The text is signed sincerely.

Margot Portriss	Aug 30	•	*		-	
margot.portriss@subrana.com						•

Dear Christine and Project Office Team Subrana,

We are reaching out to you today to discuss an important challenge that has emerged in some of our recent projects.

Over the last quarter, we have observed an uncharacteristic trend in the quality standards across various stages of our ongoing projects. Several customers have raised concerns about discrepancies in the final product, and our internal quality control team has identified inconsistencies that we cannot ignore.

The specific challenges include:

- 1. Inaccurate Documentation: There has been a marked increase in errors within our technical documentation
- 2. Software Performance Issues: Some end-users have reported occasional glitches and performance problems in the deployed solutions

About the Event: The Annual Virtual Conference 2023 is not just an event; it's an immersive experience designed to empower, inspire, and propel you into the future. Engage with renowned speakers, industry leaders, and fellow attendees from the comfort of your own space as we explore the forefront of technological, business, and cultural advancements.

In a world where borders dissolve in the digital realm, the Annual Virtual Conference 2023 emerges as a beacon of knowledge, collaboration, and innovation. This three-day virtual extravaganza transcends the limitations of physical space, inviting professionals, thought leaders, and enthusiasts from around the globe to a dynamic intersection of ideas, insights, and inspiration.

About the Annual Virtual Conference 2023: The Annual Virtual Conference 2023 is not merely an event; it's a journey into the heart of technology, a celebration of innovation, and a platform for shaping the future. As the digital landscape continues to evolve, this conference stands as a testament to our commitment to providing a world-class experience in a virtual environment.

Who Should Attend: The Annual Virtual Conference 2023 is designed for professionals across industries, researchers, academics, students, and tech enthusiasts. Whether you're a seasoned expert or just beginning your journey, the conference offers tailored content to suit diverse backgrounds and interests.

Stay Connected: Follow us on social media for regular updates, speaker announcements, and conference highlights. Join the conversation using the official hashtag #AVC2023.

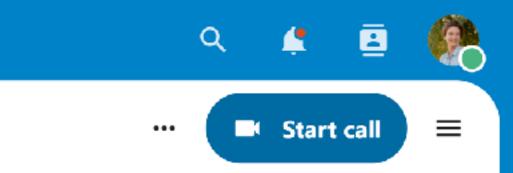

In Conclusion: The Annual Virtual Conference 2023 is not just an event; it's a gateway to the future. Join us in this virtual journey where knowledge knows no boundaries, connections are limitless, and innovation knows no borders. Be part of the Annual Virtual Conference 2023 and shape the future of technology!

Suspicious login detection

The suspicious login app is enabled on this instance. It will keep track of IP addresses users successfully log in from and build a classifier that warns if a new login comes from a suspicious IP address.

Training data statistics

So far the app has captured 258058 logins (including client connections), of which 591 are distinct (IP, UID) tuples.

Classifier model statistics

Good morning, everyone! I hope you're all doing well today. Alright, let's get started. I see that we have everyone on the call. Welcome, team.

We have a packed agenda, so I'll keep my opening statement brief.

Firstly, we'll discuss the progress of our ongoing project and any updates that need to be shared. This includes milestones reached, challenges encountered, and any new tasks that have been assigned.

Next, we'll address any concern have. It's important to h to speak up if you need

Following that, we'll everyone is aware of any adjustments or mot time.

Lastly, I'd like to allocate announcements. If anyone has something they'd like to share with the team, this will be the perfect opportunity.

Our call today shouldn't take longer than 45 minutes. I'll make sure we stay on track and respect everyone's time.

Alright, let's jump into our first agenda item. Christine, would you like to start us off by providing an averyiew of the recent developments and any challenges we've faced?

hey ***** Assistant , what are the 5 most important things not to forget when organising presence at a trade show?

Nextcloud Assistant (Bot)

Christine Schott P. Assistant, what are the 5 most important things not to forget when organisin... hey

Organizing a presence at a trade show requires careful planning and attention to detail. Here are five important things not to forget:

- 1. Clear Goals: Define your objectives and what you want to achieve at the trade show.
- 2. Compelling Booth: Create an attractive and on-brand booth design that captures attention.
- 3. Pre-Event Promotion: Promote your participation ahead of time to generate interest.
- 4. Engaging Staff: Train your team to engage visitors effectively and offer informative interactions.
- 5. Effective Follow-Up: Have a plan for following up with leads promptly after the event.

These key points will help ensure a successful and impactful presence at the trade show.

ary is AI generated and might contain mistakes

im is working on finalizing details for an upcoming event, including confirming eaker lineup, completing promotional materials, and preparing for logistics on nt day. Tasks such as finalizing badges, sending out press kits, and ensuring catering options are in place are also being addressed. The team is aiming to stay on track and ensure a smooth event execution.

Our approach to Al

Transparent

Focus on Open Source

Focus on self-hosted

Al-as-a-Service

open source initiative®

The definition

Provide access to:

- The complete source code
- Model weights
- Training data or sufficiently of used

Training data or sufficiently detailed information about the data

Pro: Prevents "open washing" Improves reproducibility

What is sufficient?

Con: \checkmark So, no full data set? Too strict! Ambiguity

Meta doesn't follow the definition. Neither do OpenAI. Or the others.

I say something beats nothing

... but some say the opposite

And honestly I'm not expert

The End (?!?)
